Steel Entry Doors

Albany offers 25 different paint colors and 11 different stain colors in more than 200 door styles. All of the styles are available with either a quick fit steel replacement frame or new construction wood or steel jambs.

A Great Performance

THE MAINTENANCE-FREE SOLAR SHIELD DOORLIGHT FRAME WILL NEVER REQUIRE PAINTING

- Superior weatherability to take the heat and sunlight.
- Durable resin resists yellowing from UV exposure.
- Excellent warp resistance in high heat environments, such as behind storm doors.
- Reduced thermal expansion and contraction.
- A Lifetime Warranty against yellowing and thermal deformation.

LIFETIME WARRANTY

Style and Beauty

The nine (9) basic door styles when added to the doorlight possibilities provide more than 200 choices. This combined with Albany Door's 25 paint colors for traditional smooth skins means almost 20,000 options.

Castlegate's Oakgrain steel skins further expand the possibilities. Oak grain is a deep grain pattern coined into the 24-gauge steel increasing the strength and dent resistance while providing the look of wood.

Albany Door can apply their four stage staining process to the Oakgrain or paint the Oakgrain to match virtually any decor.

Doors can be combined with Albany's full offering of sidelights and transoms to create unique entrances.

Exceptional Lead Time & Packaging

Albany Door Company's normal lead time is easy to remember. We call it 1, 2, 3. In most instances, primed doors are delivered in less than one week, two weeks on painted doors and three weeks for stained doors.

All prefinished doors are boxed to assure they get to the job in excellent condition. Replacement doors literally float on foam blocks inside the box while new construction doors are protected by the jambs. Everything is included to help make your job go smoothly.

Belleville Fiberglass Entry Doors

Introducing the

Belleville™ Fiberglass Door Collection,

shaping grand entryways with great looks and maximum design flexibility

HIGH-PERFORMANCE FIBERGLASS FACING

Smooth Belleville facing provides an extra smooth surface for painting that will not dent and resists splitting, cracking and warping.

HIGH-DEFINITION PANEL

New high-definition panel profile provides Smooth Belleville with excellent shadow lines and distinct panel designs.

STILE AND RAIL

Smooth Belleville replicates the appearance of a wood door with stile and rail detail.

POLYURETHANE CORE

Rigid polyurethane foam, meeting strict environmental guidelines, provides maximum thermal protection and dimensional stability.

TRUE SQUARE-EDGE DESIGN

The square-edge design of Smooth Belleville offers an attractive wood door appearance.

HIGH-PERFORMANCE FIBERGLASS & HARDWOOD DOOR BEAUTY

Specially engineered fiberglass door facings provide maximum protection and durability. The surface of the Textured Belleville door produces an authentic wood door appearance by utilizing Masonite's new, variable depth, wood-grain texture that finishes beautifully.

Frame and Warranty

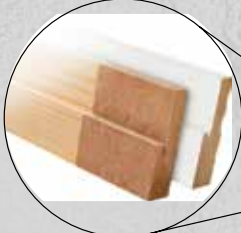

Albany Door's Weather Fighting Frame System

CONTINUOUS FRAME HEAD

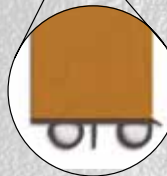

Using a continuous head, sill assembly maximizes the stability of any sidelight unit.*

FRAMESAVER® JAMBS & MOULDINGS

The bottom 5 inches of all our exterior frames and mouldings are made with a wood composite guaranteed not to wick water or ever rot.

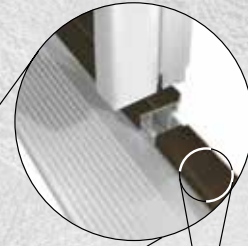

TRIPLE BOTTOM SEAL

The door seal on all our door bottoms is a bulb, fin, bulb configuration assuring a triple seal against wind and rain.

CONTINUOUS FRAME SILL

The continuous sill system virtually eliminates racking and bending because it is one solid unit. Mill finish shown is standard Brass and Bronze are available.*

COMPOSITE ADJUSTABLE RISER

Our composite riser is wear resistant, not subject to the effects of water or the transmission of hot and cold while still adjustable to maintain an optimal weather seal.

*In some instances your contractor may deem a box built unit is more appropriate for your particular installation. No matter how thick your walls, all our new construction frames are designed to be storm door ready.
